

3rd October 2016

Dear Parent/Carer

PUPIL SCHOOL DATA COLLECTION

Throughout the school year, the Department for Education collects information from school in the form of a school census. This year, the census will be collecting information about the country a pupil was born in as well as their nationality. As this is a new item collected on the school census, the information has not been obtained before.

We would be grateful if you could complete the form below to state the country your child was born in and their nationality. Information on what data is collected and why it is being collected can be found on the www.gov.uk website.

Could you please return the reply slip to school by Wednesday 5th October 2016.

Yours sincerely

P J Bowers
Headteacher
